EXPERIENCE

Personal, Frontend Developer

November 2017 - February 2019

During this period I worked on multiple projects utilising JavaScript, HTML5 & SASS. I also had some time off, however I'm still a passionate developer and continue to work on personal projects.

DRWD, Frontend Developer

May 2015 - July 2017

Worked on multiple projects utilising JavaScript, HTML5, SASS and AngularJS.

Low Cost Holidays, Software Developer

September 2014 - April 2015

Development of reusable components, implementation of provided designs and managed data obtained through a custom API.

Filofax, Magento Developer

March 2014 - August 2014

Development and management of a custom Magento Enterprise instance with multiple websites and stores.

Pen Warehouse, Magento Developer

June 2013 to February 2014

Development and product data management for a promotional gifts supplier.

Qual, Web Developer

March 2012 to February 2013

Development and management of 20 micro-sites and 4 Magento stores.
